### RE: **Federal Airport Zoning Regulation Update**

To: Landowners affected by the proposed Airport Zoning Regulation Update

The Region of Waterloo International Airport is updating its Federal Airport Zoning Regulations (AZR). AZRs ensure that development near an airport is compatible with the safe operation of aircraft. AZRs restrict the height objects (i.e. buildings, trees, towers, etc.) and other land uses that could attract birds.

[View the current Region of Waterloo International Airport Zoning Regulations](#). Section 5.4 of the Aeronautics Act outlines the AZR legislation.

This proposed Airport Zoning Regulation update may affect future development at your property. Please join us to learn more about the project and provide feedback.

What: **Master Plan Implementation Public Consultation Centre**  
When: Thursday, June 20 from 4 to 8 p.m.  
Where: Breslau Mennonite Church, 226 Woolwich Street, Breslau

This is the first of three public consultation centres. If you are not able to attend, please email your questions or comments to [airportmasterplan@regionofwaterloo.ca](mailto:airportmasterplan@regionofwaterloo.ca).

For more information, please visit: [waterloairport.ca/masterplan](http://waterloairport.ca/masterplan).

Regards,

A handwritten signature in blue ink that reads "Chris Wood".

Chris Wood, Airport General Manager
